

## The Ultimate Guest-Screening Toolset

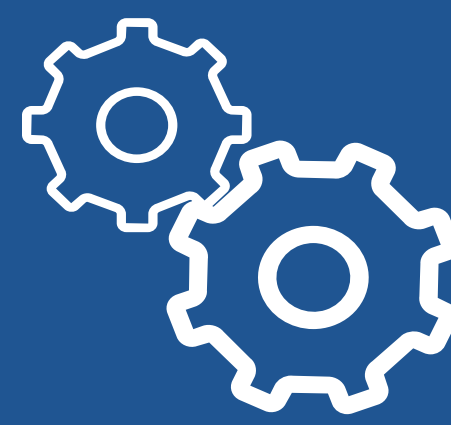

### What is Autohost?

Autohost is a guest-screening and automation platform for fast-growing hospitality companies. Using machine learning and behavioral checks, we create a scalable process to review all of your guests and keep your properties safe. Autohost automates ID verifications, credit and background checks, security deposits and more, helping you reduce your insurance premiums, improve your guest experience and acquire more units without growing your headcount.

### Why Clients Love Us

**Protect Your Properties**  
Keep your properties safe from parties, damage and more.

**Automate Your Process**  
Automate your screening and check-in process.

**Improve Guest Experience**  
Spend more time and resources perfecting the guest experience instead of manually reviewing reservations.

**Acquire More Units**  
Show investors an advanced process to screen guests and scale your business without risking their assets.

**Increase Revenue**  
Remove booking restrictions from all OTAs to get the most exposure for your listings.

**Safeguard Your Reputation**  
Increase trust in your business among stakeholders and avoid nasty PR issues.

**Need guest screening?**

## The Ultimate Guest-Screening Toolset

### The Features

#### Screening AI

Analyses every reservation, assessing and identifying the guest's risk level.

#### Chargeback Protection

Validates credit cards and confirms the guest's identity to reduce chargebacks.

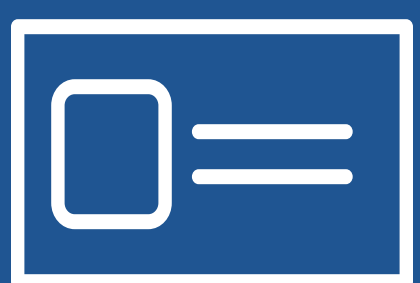

#### Guest Validation

Validates the phone, email and social media footprint of the guest to determine their legitimacy.

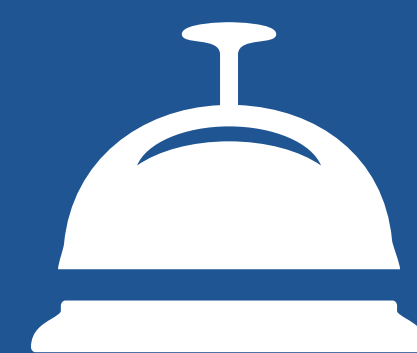

#### Background/Credit Checks

Automatically triggers deeper historical analysis based on your business rules and length of stay.

#### ID Verification

Collects and verifies government IDs and passports.

#### Check-in Kiosk

Handles check-in remotely with a front desk kiosk.

#### Online Check-In

Automates the check-in process while collecting the guest's information.

#### Fraud Detection

Flags any suspicious activity or attempts by the guest to evade identification.

## It's Time to Know Your Guest

Whether you're responding to an incident or preventing the next one, let's talk.
